Track Compliance

Complio automatically tracks immunizations, background checks, drug screenings, and fingerprinting, utilizing a unique algorithm to check against complex compliance rules. This eliminates human errors and ensures accuracy. Complio is fully customizable to your organization's specific needs.

Auto Attestation

Complio automatically creates attestation forms with digital signatures, keeping your workflow paperless and instantaneous.

Profile Sharing

Share compliance data, immunization records, background screening, fingerprint records, and clinical orientation documents with third parties who can receive shared compliance information electronically.

HIPAA Compliant

American DataBank is certified HIPAA Compliant. So rest assured all required physical, network, and process security measures are in place, so you never have to worry about the integrity of your data.

Contract Management

Manage your affiliation agreements using our Contract Management tool. Track each contract's start date, end date, and set up reminder notifications for renewals. View and store an electronic copy of the agreement, contacts related to the contract, and define sites associated to each contract. Maintain the history of changes or addenda with our contract versioning functionality.
